

# Ergonomic handles

- Improved working height and height setting (only for 01.10.30.BE).
- Halt knob makes it impossible to drill too low to the ground (only for 01.10.30.BE)
- Extended T-handle and replacement of grip points: less force needed to twist the handle.
- Ratchet system (only for 01.10.30.BE and 01.10.35.B) and rounded ends: wrists, elbows, shoulder and back into more neutral position.
- Possibility of drilling near other objects (only for 01.10.30.BE and 01.10.35.B).

Ratchet system of "old" version has been replaced with a more robust one. The bayonet part is also adjusted. It is now possible to use the standard coupling sleeves. The length of the auger can be extended easily (same as "old" version) in 2 steps of 25 cm (total 50 cm). In this way drilling can be done in a ergonomical sound way. The ergonomical bottom parts are a little bit longer due to the use of the standard coupling sleeve. The new short bottom parts have BK in the article number.

Art. no.:	Description
01.10.30.BE.	Handle, ergonomical design, (model protected), with ratchet (l+r), 25-50 cm slidable, with insulated grips, bayonet connection (incl. coupling sleeve)

Next to the ergonomic handle 01.10.30.BE some alternatives have been developed to give the customer the possibility of drilling in a more ergonomical way.

Art. no.:	Description
01.10.35.B	Handle, with ratchet (l+r), 60 cm, with insulated grips, bayonet connection (incl. coupling sleeve)
01.10.40.B	Handle with ergonomical shaped grip, 60 cm, bayonet connection (incl. coupling sleeve).
01.10.40.C	Handle with ergonomical shaped grip, 60 cm, conical screw thread connection

All it takes for environmental research

a Royal Eijkelkamp Company

## Examples of the new series

**01.10.30.BE**  
Handle, ergonomical design, (model protected), with ratchet (l+r), 25-50 cm slidable, with insulated grips, bayonet connection (incl. coupling sleeve)

**01.10.35.B**  
Handle, with ratchet (l+r), 60 cm, with insulated grips, bayonet connection (incl. coupling sleeve)

**01.10.40.B**  
Handle with ergonomical shaped grip, 60 cm, bayonet connection (incl. coupling sleeve)

**01.10.40.C**  
Handle with ergonomical shaped grip, 60 cm, conical screw thread connection
